## THE FINAL PHASE (MOPPING UP) OF THE OSWALD REVIEW:

## I. COMPUTER PRINT OUT - RE-DECLASSIFICATION

II. OFFICIAL FILE - documents that have been marked for declassification or partial DC must be so noted for future readers/reviewers. We have suggested to Mr.

<sup>03</sup>  
(Mayo) that a complete package of the sterile documents be x-refed to the CS documents. This package will be attached as another volume or bulky to the 201 file.

(Mr. (Mayo) is supposed to be discussing this matter.)

<sup>03</sup>

## III. NON-RELEASED DOCUMENTS:

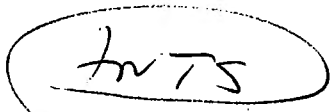

must prepare a list of those documents which are denied release--list should contain document symbol, date, description and reason for non-release. This can probably be done in conjunction with review of computer print-out. We also may have to attache an actual copy of each document to this list--I will find out.

## IV. RELEASED DOCUMENTS:

It may be necessary for us to attach to each document a FOIA check sheet (see attachment) indicating the disposition of the document plus we must stamp the sterile copy as downgraded. (NOTE: I am not sure that we have to do it or Ethel's shop--but I believe it has to be done.)

Along with the sterile copies of the documents going to FOIA/Randall's office, there must be attached both the "red-lined" copy and the "cut & pasted" copy of the document. Aggain--perhaps Ethel's shop will do this.

2/17/ These two items in IV must be decided whether or not  
the task force does them or Ethel.
